

# OHCHS Staff Computing Device

Recommendation for FY2018

Presentation to the Board  
Michael Dunn, June 19, 2017

# Background

MLTI will not provide devices for high schools starting in FY2018

District must choose a device and purchase

State will provide some support through a grant application process

RFPs released for staff and student Chromebooks on Feb 10. Student device chosen, but not staff.

New RFP released May 19.

# Proposals

Proposals from 6 manufacturers/vendors for 7 models of Chromebooks

Four proposals disqualified for not meeting the requirements (wrong screen size, not rugged enough, insufficient pricing info)

Of the remaining, the one with the best specs was the Acer R13

# Staff

Recommend the Acer R13 as proposed by CDWG

- 13.3 inch touchscreen
- 360° hinge
- MIL-spec 810 (vibration, shock, drop)
- \$374 (includes Chromebook management license @\$25 and "white glove" enrollment in management)

# Staff

## Recommend Acer R13 Chromebook

- \$374 is under my budget of \$400
- No case included for staff
- The 130 11.6" J5X Chromebooks we bought for staff PD will be transferred to the student pool.

# Chromebook recommendation summary

qty	description	each	extended
122	Staff: Acer R13 w/Ggle license, white glove	\$374.00	\$45,628.00
0	cases	\$0.00	\$0.00
	<b>TOTAL</b>	<b>\$374.00</b>	<b>\$45,628.00</b>

The equipment will be leased for three years.

Note that an additional vote on the lease purchase financing for these Chromebooks and the remaining student Chromebooks will take place in July.
